

**Amendment to Committee Print
Offered by Mr. Graves**

P. 78, line 13, insert – “provisions (L), (M), (N), (O), (P), (Q), and (R) are suspended until the Secretary has made a determination, in consultation with the Secretary of Energy, that the provision will not result in increased risk of climate change impacts as a result of higher global emissions associated with alternative non-American supply of energy resources to meet global demand. In making such determination the Secretary, in consultation with the Secretary of Energy, shall conduct analysis of

- a) projected global demand for oil and natural gas through 2050
- b) lifecycle greenhouse gas emissions of the projected supply of oil and gas
- c) if the average lifecycle greenhouse gas emissions of any of the projected global supply of oil and gas is higher or lower than the lifecycle greenhouse gas emissions that would have occurred from the supply impacted by this provision
